

Worth The Cost 2025 Year-End Letter

Dear Friends,

As we look back on this past year, I want to thank everyone who helped support this humble cause. 2025 was a momentous year for our book publishing and donation initiatives.

We successfully:

- Donated 89 books with the majority going to active-duty military and veterans. We are forever indebted to them for the peace and security we enjoy daily, knowing the weight of the sacrifices they and their loved ones have made. WTC is honored to offer a small service back to them.
- Published the 1st volume of the Collected Quotations in Spanish, giving us the opportunity to show more support for families navigating the immigration system. We hope to help those who have traveled so far to find safety are met with the dignity and encouragement they need to build their next chapter.

Your contribution didn't just put books on shelves; it put them in hands. I've seen firsthand how a single book or even a few poignant lines can change someone's day and maybe their life. Your contributions made 89 of those moments possible.

As we head into the new year, we are prepared to significantly increase our book donations and already have funding to quadruple our donations in 2026. We hope you'll continue to walk this journey with us.

From all of us at Worth The Cost, thank you for being part of the mission to extract value from adversity.

With deepest gratitude,

Michael Huyck
President, Worth The Cost
